

## Agenda

### Sheepskills Germany Meeting

Fri. 28<sup>th</sup> – Mon. 31<sup>st</sup> January 2011

#### **Remarks of the project leader:**

##### **Homework before the meeting:**

All partners put at least one course on our Sheepskills platform, and ask for help from Michael and Beate if somethings are difficult. If we all do this it is possible to use the meeting in Germany as effective as possible, and solve “all” technical questions about the platform once and for all...

Also all partners have to bring with them to our meeting documents that show the activities until now; signed papers from participants from meetings and courses. We need this for our reports.

##### **Prepare a short summary of the project status information:**

It is important that we see plans to get 100 sheep farmers active in our project, in Iceland, Turkey, Hungary and Denmark. The goal for every country is to get at least 100 to sign in to our Sheepskills platform and take active part in our courses, and of those 20-30 very active and functioning like mentors for others in the target group.

## Agenda

### Sheepskills Germany Meeting

Fri. 28<sup>th</sup> – Mon. 31<sup>st</sup> January 2011

- |                   |               |   |
|-------------------|---------------|---|
