

Information on Transportation in Cyprus:

You can find anything you need in terms of time schedules and routes here:

<http://www.cyprusbybus.com/default.aspx>

But most importantly, if you land in Larnaca and want to go to Paphos you should check the availability here:

<https://www.checkmybus.com/larnaca-airport/paphos>

If you land in Paphos and you need to go to the Hotel, there is the availability of Taxis outside the airport (can be a bit overpriced though), otherwise you should check these bus routes here:

<https://airmundo.com/en/airports/paphos-airport/transportation/>

Note that there are two bus lines available between the airport and the city. Bus route 612 runs to the harbour of Paphos (Kato Paphos Main Bus Station), bus route 613 runs to the centre of Paphos (Karavella Main Bus Station). Kato Paphos or Lower Paphos is known as the tourist area of Paphos, here you will find most hotels.

There is also a variety of options for renting a car at the Airport (mainly for Larnaca) if you think you might need it:

<https://www.kayak.com/Cheap-Larnaca-Car-Rentals.32005.cars.ksp>

During your stay, a shuttle bus will be arranged by the Municipality in order to pick up and transport everyone throughout the meeting's days where we need to be.

Hotel Information:

There are several small hotels and apartment hotels especially in Kato Paphos that you can choose from Booking. If you have any doubts and want to ask me on a specific one just contact me directly and I will give you my opinion.

Given that we will arrange a small bus for our transportation during the meeting (not for the airport though) you can choose something in this area which is also located at the old Port of the city and there are more things to do and see.
